

Memorable, Distinctive, Unique

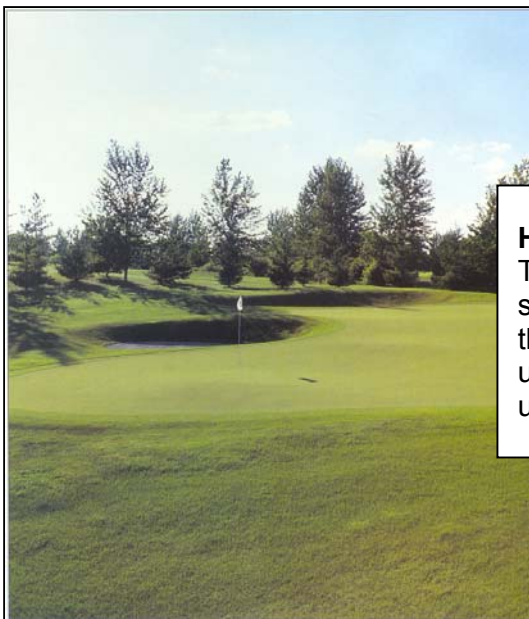

Hole 1 (Par 4, 343 yards)

This hole is designed for a long iron or 4 wood from the tee as the winds will dominate from left-to-right. Keep the short second shot below the pin.

Hole 2 (Par 4, 432 yards)

Prevailing winds from the player's back should extend the desired left-of-center landing area for the drive. Avoid the deep bunkers to the right of the green on your approach.

Hole 3 (Par 3, 196 yards)

The slightly downhill par 3 plays straight for the right-to-left hitter. If the pin is placed towards the rear, use the longer club to reach the flat upper tier.
