Logo use on a solid color background

**Note:** This logo version with white will always be placed on top of a [Pantone 2955 blue](#) background. It is not intended to be used inside a retaining shape, but on top of a color-field. [Pantone 2955 blue](#) is the only color-field this logo should be placed on. The color background is not designed to be part of the actual logo. It is created separately.

Dark Blue 2955
