

DRUGS OF ABUSE LIST

Published January 1, 2023

The following substances which are recreational drugs normally associated with social abuse rather than athletic performance enhancement (and are often times obtained illegally) and go against the spirit of our sport are considered Drugs of Abuse under the LPGA's Anti-Doping Program:

Benzylpiperazine (BZP)

Buprenorphine (Suboxone)

Cannabinoids (not including Cannabidiol): Natural cannabinoids (e.g., cannabis, hashish and marijuana), Synthetic cannabinoids (e.g., delta-9-tetrahydrocannabinol (THC)) and other cannabimimetics (e.g., "Spice" containing JWH018, JWH073 and HU-210)

Cocaine

Dextromoramide

Diamorphine (Heroin)

Dimethylamphetamine (DMA)

Fentanyl (Fentora, Duragesic) and its derivatives

Hydromorphone Dilaudid)

Methadone

Methylenedioxyamphetamine

Methylenedioxymethamphetamine (Ecstasy)

Morphine (Avinza, Kadian, MS Contin, MSIR)

Nicomorphine

Oxycodone (Percocet, Oxycontin, Roxicet, Tylox)

Oxymorphone (Opana, OpanaER)

Pentazocine (Talwin, Talacen)

Pethidine (Demerol)

Phencyclidine (PCP)
